TRANSOL

Transmission Oil

TRANSMISSION OIL / TRANSOL OIL

PRODUCT DESCRIPTION

Transol oil is blended using highly refined virgin base stocks with special additives to impart high oxidation stability, anti-wear, anti-rust, anti-foam and the desired frictional characteristics in service. It is compatible with the seal material used in hydraulic transmissions systems.

APPLICATIONS

Transol C-4 SAE 30 is recommended for use in all heavy duty commercial power shift transmissions, & automatic transmissions for on-highway & off-highway service. Recommended for use in off-road transmissions and associated equipments, hydraulic systems and enclosed oil immersed wet brakes.

PERFORMANCE LEVEL

- TRANSOL OIL (API SAE-30)
- TRANSOL TES-228-C4-ATF TYPE

BENEFITS

- Improved anti-friction and anti-wear performance.
- Excellent Oxidative stability.
- Protection against rust and corrosion.
- Versatile fluid for On & Off-highway equipments.
- Provides more stable friction property

TYPICAL PROPERTIES

CHARACTERISTICS	TRANSOL
Kinematic Viscosity @ 40°C (mm ² /s)	83.44
Appearance	Amber
Pour Point (°C)	-30
Flash Point (°C, COC)	250

This bulletin was prepared in good faith from the best information available at the time of issue. While the values and characteristics are considered representative, some variation, not affecting performance, can be expected. It is the responsibility of the user to ensure that the products are used in the applications for which they are intended.
